ZONE: R-15

The applicant asks for review and approval of new paint colors for her house and review and approval for a new metal roof.

The applicant was in attendance.

Mr. Sengstock presented the item. The roof matches existing roofs in town and he recommended approval.

The applicant was in attendance.

Mr. Sengstock presented the item. His concern is that the new siding match the existing siding. He also would like the window to match the size and design of existing windows. In addition, he recommended photographing the building before the enclosure is done in keeping with SHPO guidelines.

Mr. Schroeder asked the age of the building. The applicant, Ms. Ingrid Sarris, said that it dates from 1883.

Mr. Schroeder asked if the back of the building is original. Mr. Sengstock said the only change to the building was the metal roof.

Mr. Venker asked if the roof over the enclosure would be flat or angled. Ms. Sarris said it will be angled and the same type of roof.

Mr. Parry said the roof on the drawing looks like a 2-12 pitch. The existing roof appears to be a 4-12 pitch. The applicant, Mr. Richard Faye, said that the pitch on the drawing was an estimate. It will be between 2 and 4 in order to provide headspace.

Ms. Sarris asked if the Board wanted to see a picture of the window. Mr. Parry asked if it was similar to the existing windows and she said yes, it is custom made.

Mr. Schroeder asked if there will be duct work for heating, if holes would be cut into the existing structure. Mr. Faye said no, the enclosure will not be heated and it is not necessary to cut holes. Mr. Pontious said that what is done inside doesn't concern Design Review Board.

Mr. Venker moved to approve the item.

Mr. Parry wanted to amend the motion to require that the enclosure look as much like the existing building as possible.

Mr. Faye presented a new drawing showing the proposed enclosure in better detail. The siding will be clapboard style which looks "pretty much the same."

Mr. Schroeder asked if Mr. Sengstock will provide a copy of the National Register photographic documentation standards. Mr. Sengstock agreed to do so.

Mr. Parry seconded the motion to approve with the stipulation that the applicants attempt to match the addition to the existing structure as best as they can. The motion passed unanimously.

## ITEM 6: ADJOURNMENT

Chair Pontious observed that there was no item on the agenda for "Future Agenda Items." He asked that it be included on future agendas.

Chair Pontious made a motion to adjourn. It was seconded by Mr. Venker. The motion carried unanimously and the meeting adjourned at 7:15p.m.

Approval on next page.
