RE: Mine Café Sign

Board Members / Administrator,

On behalf of the Mine Café the Jerome Historical Society would like to move their approved existing sign to a different location. The new location would be moved towards Main Street by 4 foot and would be on a post that is connected to the hand rail as shown in the photos provided. The original metal bracket would be used along with the lights for the lighting of the sign. The Sign would not hang any lower than eight foot off of the sidewalk, and would be double secured and a chain added for security during high winds.

There would be no change what so ever in the sign color size or design. It would just be a location change only.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jay Kinsella', with a stylized flourish at the end.

Jay Kinsella

Jerome Historical Society
